Statistics 159 & 259 — Fall 2015 Project ideas
Reproducible and Collaborative Statistical Data Science

Potential papers:

OpenfMRI `https://www.openfmri.org/` is a good resource for publicly-available fMRI datasets. Here is a list of potential papers and suggested topics:

- Haxby et al. (2001): Faces and Objects in Ventral Temporal Cortex (fMRI)

  use the data set to show regions more involved in face processing versus scenes/ object processing - check that this about the region that was used to predict the condition in this paper ...

  For more information see: `http://dev.pymvpa.org/datadb/haxby2001.html`

- Visual imaging papers from Jack Gallant's lab.
